

VICENTI

KCC GLASS PREMIUM FURNITURE FILM • PET

VICENTI FURNITURE | PET

주방 및 일반가구의 표면마감재로 건강친화형 주택건설기준에 부합하는 친환경 제품입니다.
고급스럽고 미려한 색상과 뛰어난 표면질감으로 품격 높은 공간을 연출할 수 있습니다.

It is an eco-friendly product that meets the standards for health-friendly housing construction as a surface finishing material for kitchens and general furniture. You can create a high-class space with luxurious and beautiful colors and excellent surface texture.

제품규격

Product Standard

소재 (Material)	두께 (Thickness)	폭 (Width)	용도 (Usage)
PET	0.2mm ~ 0.6mm	1,260mm ~ 1,440mm	가구전면용 (for furniture front)

제품특장점

Product Features

환경 친화형 소재 _ Eco-friendly material

- 한국공기청정협회 친환경 건축자재 인증 최우수 등급 (대상제품 : 솔리드)
- 유해 중금속(납, 수은 등) 미함유
- 프탈레이트 가소제 미함유
- Best eco-friendly building material certification
- No harmful heavy metals (lead, mercury, etc.)
- No phthalate plasticizers

디자인 차별화 _ Differentiate your design

- 다양한 프리미엄 패턴과 색상으로 선택의 폭 확대
- 엠보싱에 의한 외관의 고급화
- 리얼 서스 질감의 메탈 효과 구현
- Expanded range of choices with a variety of premium patterns and colors
- Advanced appearance by embossing
- Implemented metal effect of the real-sus texture

유해물질 방출 최소화 _ Minimization of harmful substance emission

- 휘발성 유기화합물(TVOC) 방출 최소화
- Minimize emission of volatile organic compounds (TVOC)

PUR 가공성 및 부착력 우수 _ Excellent PUR processability and adhesion

- 메탈제품의 내지문성 기능 부여
- PUR 가공성 및 부착력 우수
- Provide anti-fingerprint function of metal products
- Excellent PUR processability and adhesion

23-24 TREND SUMMARY

MAIN THEME ESSENTIAL

“변화의 속도가 빠른 시대 속에서 삶의 균형에 대한 가치와 개인의 다양성을 인정하는 태도, 그리고 자연의 일부임을 인지하고 함께 하는 삶의 가치를 인식하는 것은 가장 기본적인 것임에도 우리는 잊고 살고 있었다. 이에, KCC글라스에서는 불확실한 삶속에서 본질에 대한 인식의 중요성을 논하는 ESSENTIAL을 2023/24 메인테마로 제안한다. 그 무엇보다 필수적이지만, 때로는 익숙함으로, 사소하게 잊혀져 간 가치들에 대해 생각해 보자.

Even though the attitude of admitting the balance between the value of life and individual variety while living with the environment is very basic, we have forgotten about it in an age of rapid change. So KCC GLASS & Materials suggests the ESSENTIAL, which manifests the importance of recognizing nature in uncertain life, as the main theme for 2023/24. Let's think about the values that are essential above all else, but are sometimes trivially forgotten through familiarity.

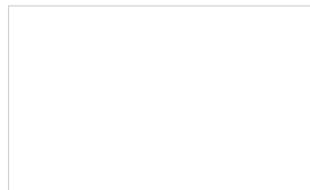

Theme 01 일상의 균형

BALANCE

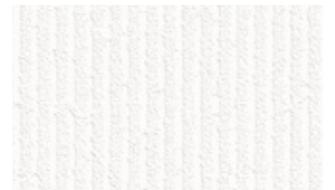

불확실성이 포화상태에 이른 현대 사회에서 불안의 심리는 시대적, 문화적 특징이 되고 있습니다. 따라서 신체와 정신, 감정의 균형을 유지하기 위한 라이프 스타일이 주목을 받고 있는데, 이에 따라 Balance에서는 따뜻하고 부드러운 느낌의 감성적 미니멀리즘을 제안합니다. 복잡함을 제거한 단정함, 그리고 차분한 색조와 절제된 형태의 단순함이 핵심입니다. 그리고 눈과 손으로 느껴지는 부드러움과 편안함이 무엇보다 중요한 요소로 작용하여 부드러운 질감의 소재가 메인으로 사용됩니다.

In a modern society where uncertainty is saturated, anxiety characterizes both time and culture. Therefore the lifestyle to maintain the balance between body, mind, and emotion is attracting attention. So, BALANCE suggests warm and soft minimalism. Neatness without complexity, and calm shades are the points. Also, the palpable softness and comfort, which are used as the main factors, will take a pivotal role.

Theme 02 개별성의 표출

EXPRESSION

이제는 개별성이 존중되는 초개인화 시대에 접어들었습니다. 시장에서 제공한 재화를 수동적으로 받아들였던 기존의 소비자에서, 적극적으로 '나를 중심'으로 한, 내 취향에 맞는 제품을 선택하는 소비자들로 시장이 변화하고 있는 것입니다.

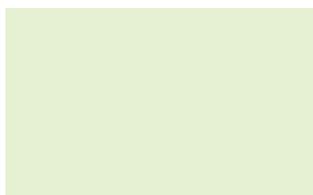

Expression은 적극적으로 자신과 자신의 의견을 표출하고자 하는 이들을 대상으로 제안합니다. 지속적인 유행을 보이고 있는 레트로 무드를 차용하며, 다채로운 표현을 위한 과감한 컬러와 면분할, 볼드한 패턴이 특징이 되는 낙관주의적이고 개성적인 스타일입니다.

We are now living in a society where individuality is respected. Customers no longer accept old-fashioned market goods but prefer the goods that meet their tastes. So EXPRESSION offers suggestions for those who actively express their preferences and opinions. It borrows a retro mood that is continuously trending and expresses an optimistic and individual style with decisive color, face division, and bold patterns.

Theme 03 자연의 자취

TRACE

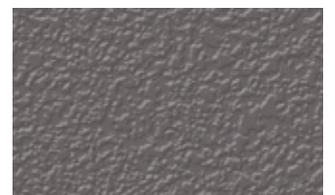

2022년 한 해는 유독 기후재난과 같은 위기의 상황을 더 가까이 겪은 한 해였습니다. 테마3 Trace는 기후 위기의 시대를 헤쳐 나가야 하는 현재 우리 삶속에서 자연의 흔적이 남긴 해답에 대해 생각해 보고자 합니다. 이 테마에서는 자연을 바라보는 새로운 시각을 통해, 이 자연이 지내온 시간에서 영감을 받은 디자인과 함께, 자연과 인공의 융합을 모티브로 하여 구성됩니다. 풍부한 자연의 질감과 패턴, 자연의 진중함을 연상시킬 수 있는 어두운 컬러감이 특징입니다.

2022 was a harsh year with adversities like climate disasters. Theme 3, TRACE focuses on the answers left by the trace of nature in our lives when we have to weather climate crisis. This theme consists of a new perspective on nature, a design inspired by the time it has spent, and a motif of the fusion of nature and artificiality. It can be reminiscent of rich texture, a pattern of nature, and the seriousness of nature with dark colors.

The image features a minimalist, abstract design. A large, semi-transparent orange circle is the central focus, partially overlapping a solid orange background. Below the circle, two smaller, solid orange cylinders are stacked vertically, creating a sense of depth and perspective. The overall color palette is a warm, monochromatic orange. The word "FUNCTIONAL" is centered within the large circle in a bold, white, sans-serif font.

FUNCTIONAL

FRP 소개

FRP(Fire retardant plus)

FRP(Fire retardant plus)는 KCC GLASS만의 방염기술이 집약된 제품으로 PET FILM 자체 방염성능 뿐만 아니라 MDF 부착 후에도 방염성능이 구현되는 제품입니다.

KCC GLASS flameproof PET is a product that combines KCC GLASS's flameproof technology, and not only PET FILM's flameproof performance, but It is also a product that realizes flame resistance performance even after attaching MDF.

방염성능 평가 결과

Results of flame resistance evaluation

SMP 소개

SMP(Super matt plus)

SMP(Super matt plus)은 KCC GLASS만의 특수 표면 코팅 기술로 완성된 Anti-finger 제품으로 기존 제품 대비 내지문성 및 경도, 무광 효과를 현저하게 개선한 제품입니다.

SMP(Super matt plus) is made by special coating technique from KCC GLASS. Compared to previous Anti-finger products Advanced anti-finger, scratch resistance and super matt effect.

내지문
Anti-finger print

경도우수
Superior scratch resistance

Ultra Super Matt
Almost no deviation of gloss level up to viewing angel

이광성
No gloss level change after scratch

항균기능성
Powerful anti bacteria

R-PET 소개

R-PET(Recycle PET)

'KCC글라스 리사이클 가구용 필름'은 재활용 플라스틱 (PCR, Post Consumer Recycled) 원료를 사용하여 만든 친환경 제품입니다. 폐 PET병을 수거한 후 고도의 리사이클 기술과 불순물 제거 공정을 통해 기존 원료와 동등 수준의 물성을 확보한, 최고 수준의 리사이클 원료가 함유되어 있습니다.

'KCC GLASS R-PET is an eco-friendly film made by PCR(Post-consumer recycled) materials. It contains the world's highest level of recycled raw materials that have secured the same level of physical properties as existing raw materials from used PET bottles collected through advanced recycling technology and impurity removal process.
