RAL Gütegemeinschaft Kunststoff-Fensterprofilssysteme e.V.

and actively supports the goals of the association.

Bonn, 01.02.2020

Dr. Michael Stöger
President

Gerald Feigenbutz
General Manager

RAL Gütegemeinschaft Kunststoff-Fensterprofilssysteme e.V. (Quality Association for PVC Window Profile Systems) stands for the quality of PVC window profile systems since its foundation in 1979. It awards the RAL Quality Mark to member companies that meet the requirements of the RAL-GZ 716 quality and testing regulations. It continuously develops the state-of-the-art in order to match the challenges of the future. The members of the association are manufacturers of the entire value chain of PVC window systems, like system-manufacturers as well as manufacturers of gaskets and their compounds, of films, adhesive systems, sealants, machines and laminating companies.

The validity of this certificate can be verified at www.gkfp.de
